

## Summer Student Employment Opportunity Field Monitoring Assistant Positions

The Grand River Conservation Authority's departments of Water Resources and Planning and Regulation Services require an energetic, independent Field Monitoring Assistants to support the water quality and subwatershed planning programs. The Field Monitoring Assistant will spend most of their time outside (weather permitting) working with a full-time Field Technician/Monitoring Coordinator conducting environmental monitoring activities.

### Responsibilities

Field work may include collecting water quality samples from streams and beaches, calibrating and deploying multi-probe data sondes for continuous measurement of water quality parameters, fish community surveys (including by electrofishing), and benthic macroinvertebrate collection. This position may also assist with the collection of aquatic resource inventory information, including flow surveys and canoe surveys of aquatic plants. Additional duties include data management, requiring proficiency with Microsoft Excel® to organize and compile data and web-GIS mapping tools to identify field monitoring locations.

### Skills/Qualifications:

We are seeking students in Environmental Sciences, Environment Engineering, Water Resources or a related field of study. Applicants must be comfortable working in and around water. Applicants must have a valid driver's license and a valid student card. Familiarity with standard field protocols for the collection of water quality samples, benthic macroinvertebrate sampling (e.g. Ontario Benthos Biomonitoring Network), and fish community surveys (e.g. Ontario Stream Assessment Protocol), is an asset. Canoe certification (e.g. ORKCA) and Standard First Aid/CPR are also assets.

All successful applicants must possess their own Green Patch CSA approved safety boots, be able to work outdoors in all weather conditions and be available to work the duration of the season.
